Re: MADE IN AMERICA LABELS

1) Why Do You want to Commit Fraud By Saying Something is Made in America when It's Not? I Believe it Should be 100% Made in America to bear that label.

2) The FTC has not publicized this proposed change to the general public. I heard it on the radio today by accident. I am sure this is being pushed by Corporations who want to [illegible] labor and then

FROM S 01.01.1988 00:01 P. 1

FTC

Re: Made In America

bring ~~them~~ products back like they were manufactured here under fair wages.

3) The FTC is betraying the public trust by proposing to mislabel products.

Companies should bring the factories back to the United States of America if they want the "made In America" designation.

DO NOT CHANGE THE LABELING LAWS!
TELL THE TRUTH ABOUT MADE IN AMERICA.
