passes an addition to this rule prohibiting sexual or racial attacks related to this disclosure. In the end the rule must bind the FTC to take direct enforcement action on sexual and racial attacks with a special unit assigned to monitor actions related to the disclosure forms.

Earnings claim statement. While my company strongly supports the proposition that earnings claims made by business opportunity sellers should be substantiated, this requirement will not deter fraud. A fraudulent company will not provide accurate data, while legitimate business opportunity sellers will have difficulty in meeting the propos requirements.

Legal actions. This rule will require disclosure of litigation potentially unrelated to the business opportunity transaction. It does not provide for disclosure of the outcome of th litigation. Thus, litigation that was favorably resolved for a distributor, or is otherwise irrelevant to the recipient of the disclosures, would still need to be provided.

Cancellations and refunds. Disclosure to prospects will be misleading due to the fact th distributors often join to achieve specific, short term objectives, leading to a high cancellation ratio that is not representative of the satisfaction of the average new purchaser.

I have been approached by many crooks because of my success. This rule will do nothi to stop them. The crooks are hurting my business! This rule will not stop Crooks – they violate the current rules all the time. I am a good American citizen and this rule will hu me. Thank you and please help me.
