SECRETARY

Aug. 8, 1997

Dear Secretary, Fed. Trade Comm,

Keeping Made in USA labels accurate is important to citizens of the USA. Many people (US patriots) and myself want to buy things made in USA and want it to mean that our U.S. workers have grown or made them.

We are tired of free trade with cheap trashy foreign imports in the stores.

Huge trade deficits are against the economy & sovereignty of our country. Such policies are crazy.

Out here many practice: "Buy American, Buy Used (made in U.S.A) or Do Without."

Sincerely, Dr. Doris W. Peterson
