7/2/06

Dear Sir or Madam:

Why Rule R511993

FEDERAL TRADE COMMISSION
RECEIVED DOCUMENTS
JUL 11 2006
SECRETARY

My name is Bill Homan I'll turn 76 in August and there are few things open to those in my age group. I sell a good product. It has a lot of science behind it. Xango has been a fair company. Members of my family have received benefits from it. I believe in the company and its product.

I think that there maybe companies and products that don't come up to the high standards that we have. Name me any industry that doesn't have a few that don't follow the rules. How does punishing a whole industry help? Several of the rules you are looking at can cause more harm than good.

Looking for your help.
