To the Federal Trade Commission:

I have owned & operated a record and CD store for 14 years. I have faced competition from larger, more capitalized businesses, and have always managed to keep my head above water.

However, to confront businesses that sell at or below cost will most likely prove ruinous to my business, and many other small and medium size businesses.

If you are concerned at all with the survival of small businesses and the vitality they bring to downtown shopping areas in cities, you will reconsider your decision to revoke M.A.P.

Thank you,

Richard J. Brown, owner
