ORIGINAL

Dear Sir/Madam: 477093-2

Yes, I would like to see privacy rules tightened. I do not think any information should be given out on any person without their permission - especially social security numbers, birthdates, and any personal information.

I would also like to see unsolicited credit cards and loans stopped. If not, those companies should be held fully responsible to straighten out any theft of them. They should have to pay to find and prosecute the criminals, pay all charges to have the innocent party's credit cleared. These people that are

so irresponsible to send out unsolicited cards and loans pre-approved and names and addresses printed on the forms should have to pay every penny involved with any theft of them. Hold them responsible!

I think it should be against the law to send out any pre-approved unsolicited forms with names and addresses already printed on.

We need some protection!

Sincerely,

(Mrs.) LaVerne Cunningham
