Please help the public. Thanks

16 CFR Part 424 Retail Food Store Rule
Project # P104203

Pls. expand the rule to include all other stores including office supply stores. Recent example: Week B4 school started, Staples advertised poster tabs to hang items in classrooms. When I got there, empty wall where they had been. There was only room for 6 of them on the little metal hanger. I saw the quantity b/c of the other nearby products (which were 5x's as much in cost) could only hold that amount. We, as educators, need support for basic supplies, not gimmicks.
