I have worked at the Tops Pt. 591 store for fourteen years. I am 72 years old and rely on this extra income and benefits I receive by working here. I do not wish to sell my home and move to low income housing, or rely on help from other sources, as I've seen some of my friends my age do.

I think everyone in these stores deserves the chance to continue working.

We've worked

very hard on limited
hours and help, trying
our very best to make
our customers happy.
