

## Merger Enforcement Actions - Part 2 Consents (FY 1996 - FY 2012)

Matter: Enforcement Date: Industry:

1. **1110122 - Western Digital / Hitachi** 3 /5 /2012 Information and Technology – Hardware  
<http://www.ftc.gov/os/caselist/1110122/index.shtm>

The FTC will require Western Digital Corporation to sell assets used to manufacture and sell desktop hard disk drives to Toshiba Corporation as part of a proposed settlement that resolves charges that Western Digital's proposed acquisition of rival Hitachi Global Storage Technologies Ltd. would likely have harmed competition in the market for desktop hard disk drives used in personal computers. The proposed FTC order settles charges that the deal as originally proposed would have left only two companies, Western Digital and Seagate Technology LLC, in control of the entire worldwide market for desktop hard disk drives.

2. **1110207 - Carpenter / HHEP-Latrobe** 2 /29/2012 Manufacturing – Industrial Goods  
<http://ftc.gov/os/caselist/1110207/index.shtm>

The FTC will require specialty metals manufacturer Carpenter Technology Corporation to sell assets involved in producing two metal alloys used in the aerospace industry, under a proposed settlement resolving charges that Carpenter's proposed \$410 million acquisition of Latrobe Specialty Metals, Inc. would harm competition in the U.S. markets for these alloys. The FTC's complaint alleges that Carpenter and Latrobe are the only companies that make these highly specialized alloys, and that the combination of the two companies would be anticompetitive in the U.S. markets for both alloys. The deal – a merger to monopoly – likely would lead to higher prices for consumers of the two alloys, in violation of the FTC Act and Section 7 of the Clayton Act, according to the complaint. The proposed settlement is part of the FTC's efforts to preserve competition that benefits consumers by keeping prices low and quality and service high. It requires that, in order to complete the deal, Carpenter divest assets necessary for manufacturing the two alloys – MP159 and Aerospace MP35N – to another metals manufacturer, Eramet S.A.

3. **1110170 - Fresenius / Liberty** 2 /28/2012 Health Care – Hospitals/Clinics  
<http://ftc.gov/os/caselist/1110170/index.shtm>

The FTC required Fresenius Medical Care AG & Co. KGaA to sell 60 outpatient dialysis clinics in 43 local markets under a proposed settlement resolving charges that its acquisition of rival dialysis provider Liberty Dialysis Holdings, Inc. would harm competition in numerous local markets for outpatient dialysis services around the country. By requiring the sales, the FTC settlement preserves competition in each of the local markets, and protects renal care patients from anticompetitive price increases or reductions in quality of care. According to the FTC, Fresenius's acquisition of Liberty would eliminate head-to-head competition between the firms in the 43 markets at issue, leading to higher prices and reduced quality for dialysis consumers. The proposed acquisition allegedly would lead to monopolies for outpatient dialysis services in 17 of the 43 local markets. In 24 other markets, the proposed acquisition would cause the number of dialysis providers to drop from three to two. Competition would be significantly reduced in the remaining two markets.

4. **1210022 - Amerigas / ETP** 1 /11/2012 Energy – Other  
<http://www.ftc.gov/os/caselist/1210022/index.shtm>

The Commission will require AmeriGas L.P. and Energy Transfer Partners L.P. (ETP), two of the nation's largest propane distributors, to amend AmeriGas's proposed acquisition of ETP's Heritage Propane business as part of a settlement with the FTC. The settlement resolves FTC charges that the deal, as originally proposed, would have reduced competition and raised prices in the market for propane exchange cylinders that consumers use to fuel barbeque grills and patio heaters. AmeriGas originally entered into an agreement with ETP to acquire ETP's Heritage Propane business in October 2011 for \$2.9 billion. The FTC's settlement protects consumers by requiring AmeriGas to exclude ETP's cylinder exchange business, Heritage Propane Express, from the sale.

5. **1110215 - Valeant / Sanofi-Aventis** 12/12/2011 Health Care – Prescription Drugs  
<http://www.ftc.gov/os/caselist/1110215/index.shtm>

Protecting competition in the market for three topical dermatology drugs, the Federal Trade Commission has approved orders requiring Valeant Pharmaceuticals International, Inc. to divest three drugs used to treat different skin ailments, as conditions of acquiring Ortho Dermatologics, Inc. from Johnson & Johnson, and Dermik Laboratories, Inc. from Sanofi. Under the settlements, Valeant will sell the manufacturing and marketing rights to drug products that treat acne and actinic keratosis, a pre-cancerous skin lesion, to Mylan Pharmaceuticals Inc. Valeant also will sell the marketing rights to a drug that treats fine line wrinkles to Spear Pharmaceuticals, Inc. Both settlements preserve competition and prevent higher prices that likely would have resulted from the acquisitions. (also see 1110215)

6. **1110216 - Valeant / J & J** 12/12/2011 Health Care – Prescription Drugs  
<http://www.ftc.gov/os/caselist/1110216/index.shtm>

Protecting competition in the market for three topical dermatology drugs, the Federal Trade Commission has approved orders requiring Valeant Pharmaceuticals International, Inc. to divest three drugs used to treat different skin ailments, as conditions of acquiring Ortho Dermatologics, Inc. from Johnson & Johnson, and Dermik Laboratories, Inc. from Sanofi. Under the settlements, Valeant will sell the manufacturing and marketing rights to drug products that treat acne and actinic keratosis, a pre-cancerous skin lesion, to Mylan Pharmaceuticals Inc. Valeant also will sell the marketing rights to a drug that treats fine line wrinkles to Spear Pharmaceuticals, Inc. Both settlements preserve competition and prevent higher prices that likely would have resulted from the acquisitions. (also see 1110215)

7. **1110155 - LabCorp / Orchid Cellmark** 12/8 /2011 Health Care – Professional Services

<http://www.ftc.gov/os/caselist/1110155/index.shtm>

The Commission required laboratory testing companies Laboratory Corporation of America Holdings (LabCorp) and Orchid Cellmark Inc. (Orchid) to divest a portion of Orchid's paternity testing business, to resolve the FTC complaint alleging that LabCorp's \$85.4 million acquisition of Orchid would have an anticompetitive impact in the market for paternity testing services used by government agencies. The FTC's complaint alleges that LabCorp's acquisition of Orchid would illegally reduce competition in the U.S. market for paternity testing services provided to government agencies. Under the proposed settlement order, the portion of Orchid's U.S. paternity testing business that is focused on sales to government agencies, and related assets, will be sold to another testing company, DNA Diagnostics Center (DDC).

8. **1110097 - IMS Health / SDI Health** 10/28/2011 Health Care – Other

<http://www.ftc.gov/os/caselist/1110097/index.shtm>

The FTC reached a settlement with Healthcare Technology Holdings, Inc., the parent company of market research firm IMS Health Inc., according to which IMS has agreed to sell two product lines of rival SDI Health LLC, as a condition of allowing it to proceed with its acquisition of SDI. The proposed settlement order requires the sale of SDI's promotional audit and medical audit businesses to an FTC-approved buyer to resolve the agency's charges that IMS's acquisition of SDI, as originally proposed, is anticompetitive and likely would increase prices for market research products in the health care industry.

9. **1110166 - Cephalon / Teva** 10/7 /2011 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/1110166/index.shtm>

The FTC required Teva Pharmaceutical Industries Ltd. to sell the rights and assets related to a generic cancer pain drug and a generic muscle relaxant, as a condition of its proposed \$6.8 billion acquisition of rival drug firm Cephalon, Inc. In addition, the proposed settlement requires Teva to enter into a supply agreement that will allow a competing firm to sell a generic version of Cephalon's wakefulness drug Provigil in 2012.

10. **1110103 - DaVita / DSI Renal** 9 /2 /2011 Health Care – Hospitals/Clinics

<http://www.ftc.gov/os/caselist/1110103/index.shtm>

The Commission required dialysis services company DaVita, Inc. to sell 29 outpatient dialysis clinics around the United States, under a settlement that resolves FTC charges that DaVita's proposed \$689 million acquisition of rival CDSI I Holding Company, Inc., also known as DSI, would be anticompetitive. The settlement preserves competition in 22 geographic markets where the FTC alleges that consumers would be harmed by DaVita's acquisition of DSI. The settlement requires DaVita to sell the clinics to Dialysis Newco, Inc., a corporation formed by venture capital firms Frazier Healthcare and New Enterprise Associates.

11. **1110083 - Perrigo / Paddock Laboratories** 7 /26/2011 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/1110083/index.shtm>

The Commission required generic drug manufacturers Perrigo Company and Paddock Laboratories, Inc. to sell six generic drugs under a proposed settlement resolving charges that Perrigo's proposed \$540 million acquisition of Paddock would be anticompetitive. The proposed settlement also contains provisions to ensure future competition in the market for generic testosterone gel product.

12. **0910136 - Cardinal Health, Inc. / BioTech Pharmacy, Inc.** 7 /21/2011 Health Care – Retail/Pharmacies

<http://www.ftc.gov/os/caselist/0910136/index.shtm>

The Commission required Cardinal Health, Inc. to reconstitute and sell nuclear pharmacies in Las Vegas, Nevada; Albuquerque, New Mexico, and El Paso, Texas under a settlement order resolving the agency's charges that Cardinal's purchase of nuclear pharmacies from Biotech reduced competition for low-energy radiopharmaceuticals in the three cities.

13. **1010153 - Grifols / Talecris** 6 /1 /2011 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/1010153/index.shtm>

The FTC required Grifols, S.A., a manufacturer of plasma-derived drugs, to make significant divestitures as part of a settlement allowing Grifols to acquire a leading plasma-derived drug manufacturer, Talecris Biotherapeutics Holdings Corp.

14. **1010021 - Irving / Exxon Mobil** 5 /26/2011 Energy – Petroleum

<http://www.ftc.gov/os/caselist/1010021/index.shtm>

The Commission required Irving Oil Terminals Inc. and Irving Oil Limited (collectively, Irving) to relinquish the rights to terminal and pipeline assets in Maine that Irving acquired from ExxonMobil, to maintain competition in gasoline and distillates terminaling services in the South Portland and Bangor/Penobscot Bay areas. The proposed settlement resolves the FTC's charges that the acquisition is anticompetitive and could result in higher gasoline and diesel prices for consumers.

15. **1110051 - Hikma Pharmaceuticals / Baxter International**      4 /27/2011      Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/1110051/index.shtm>

The Commission required Hikma Pharmaceuticals PLC (Hikma) to divest two generic injectable pharmaceuticals – phenytoin and promethazine – as part of a settlement allowing it to acquire certain assets from Baxter Healthcare Corporation, Inc. (Baxter). Hikma proposes to acquire Baxter’s entire generic injectable pharmaceutical business for \$111.5 million, including Baxter’s Cherry Hill, New Jersey, manufacturing facility and a warehouse and distribution center in Memphis, Tennessee. Phenytoin is an anti-convulsant drug used to control and prevent seizures during or after surgery and Promethazine is used to prevent some types of allergies or allergic reactions, to prevent or control motion sickness, nausea, vomiting, and dizziness, and to help patients go to sleep and control their pain or anxiety before or after surgery.

16. **1010175 - Keystone / Compagnie de Saint-Gobain**      12/29/2010      Manufacturing – Industrial Goods

<http://www.ftc.gov/os/caselist/1010175/index.shtm>

The FTC preserved competition in the North American market for alumina wear tile by imposing conditions on Keystone Holdings, LLC and Compagnie de Saint-Gobain in a settlement involving Keystone’s planned acquisition of Saint-Gobain’s Advanced Ceramics Business. According to the FTC’s complaint, the deal as originally structured would have reduced competition in the relevant markets by eliminating direct competition between CoorsTek – the Keystone subsidiary that manufactures its tiles – and Saint-Gobain. In addition, the deal would increase CoorsTek’s market share substantially, eliminate CoorsTek’s most significant alumina wear tile competitor in North America, allow the combined company to raise prices for alumina wear tile, and increase the likelihood that the remaining firms could act together to raise consumer prices for alumina wear tile.

17. **1010142 - Universal Health Services / Psychiatric Solutions**      11/15/2010      Health Care – Hospitals/Clinics

<http://www.ftc.gov/os/caselist/1010142/index.shtm>

The FTC required Universal Health Services, Inc., one of the nation’s largest hospital management companies, to sell 15 psychiatric facilities as a condition of its \$3.1 billion acquisition of Psychiatric Solutions, Inc. As originally proposed the acquisition would have reduced competition in the provision of acute inpatient psychiatric services in three local markets: Delaware, Puerto Rico, and metropolitan Las Vegas, Nevada.

18. **1010061 - Simon Property Group / Prime Outlets**      11/10/2010      Retail – Other

<http://www.ftc.gov/os/caselist/1010061/index.shtm>

Under the terms of the settlement, Simon Property Group, Inc. is required to divest property and modify tenant leases to preserve outlet center competition in parts of southwest Ohio, Chicago, Illinois, and Orlando, Florida, in the wake of Simon’s purchase of Prime Outlets Acquisition Company, LLC. In addition, Simon has agreed to remove radius restrictions for tenants with stores in its outlet malls serving the Chicago and Orlando markets.

19. **1010107 - Coca-Cola / Coca-Cola Enterpirse**      9 /27/2010      Manufacturing – Food & Beverages

<http://www.ftc.gov/os/caselist/1010107/index.shtm>

As part of a settlement, The Coca-Cola Company agreed to restrict its access to confidential competitive business information of rival Dr Pepper Snapple Group as a condition for completing Coca-Cola’s proposed \$12.3 billion acquisition of its largest North American bottler, which also distributes Dr Pepper Snapple carbonated soft drinks. Under the settlement with the FTC, Coca-Cola will set up a “firewall” to ensure that its ownership of the bottling company does not give certain Coca-Cola employees access to commercially sensitive confidential Dr Pepper Snapple marketing information and brand plans. In a complaint filed with the settlement, the FTC charged that access to this information likely would have harmed competition in the U.S. markets for carbonated soft drinks.

20. **1010093 - Airgas / Air Products and Chemicals**      9 /10/2010      Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/1010093/index.shtm>

Industrial gas supplier Air Products and Chemicals, Inc. reached an agreement with the Commission requiring the company to sell certain liquid gas assets to resolves FTC charges that Air Products’ proposed acquisition of Airgas would harm competition in five regional markets for bulk liquid oxygen and bulk liquid nitrogen, which are used in a range of applications from hospital patient care to the manufacture of frozen foods.

21. **1010068 - Nestle / Novartis**      8 /16/2010      Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/1010068/index.shtm>

To settle Federal Trade Commission charges that its proposed acquisition of Alcon, Inc., would be anticompetitive, Novartis AG agreed to sell an injectable eye care drug used in cataract surgery. Novartis and Alcon are the only two U.S. providers of the class of drugs known as injectable miotics, and the FTC alleges that the acquisition would have created a monopoly in injectable miotics. The settlement requires Novartis to sell its drug Miochol-E to Bausch & Lomb, Inc.

8 /4 /2010

Retail – Grocery/Supermarkets

<http://www.ftc.gov/os/caselist/1010074/index.shtm>

The Commission reached settlement agreement with Tops Markets LLC that protects consumers from the potential anticompetitive effects of Tops' recent acquisition of the bankrupt Penn Traffic Company supermarket chain. To settle FTC charges that the acquisition was anticompetitive in several areas of New York and Pennsylvania, Tops agreed to sell seven Penn Traffic supermarkets to FTC-approved buyers. Because the FTC adopted a flexible process for reviewing the potential anticompetitive effects of the acquisition, none of the 79 Penn Traffic stores was liquidated in the bankruptcy proceeding.

**23. 0810130 - NuFarm / A.H. Marks Holdings, Ltd.**

7 /28/2010

Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/0810130/index.shtm>

Australian chemical company Nufarm Limited agreed to sell certain assets and modify some of its business agreements to settle charges that its 2008 acquisition of rival A.H. Marks Holding Limited hurt competition in the U.S. market for three herbicides that are relied upon by farmers, landscapers, and consumers. Under the settlement, Nufarm will sell rights and assets associated with two of the herbicides to competitors and will modify agreements with two other companies to allow them to fully compete in the market for the other herbicide. Nufarm's acquisition of United Kingdom-based A.H. Marks gave Nufarm monopolies in the U.S. markets for two herbicides called MCPA and MCPP-P, which also are known as phenoxy herbicides. The transaction also left only two competitors in the market for a third phenoxy herbicide, called 2,4DB. The three herbicides are widely used in the turf, lawn care, and agriculture industries to eliminate certain weeds safely and cheaply.

**24. 0910032 - Fidelity / LandAmerica**

7 /16/2010

Information and Technology – Software/Databases

<http://www.ftc.gov/os/caselist/0910032/index.shtm>

To settle Federal Trade Commission charges that its 2008 acquisition of three LandAmerica Financial, Inc. subsidiaries was anticompetitive, Fidelity National Financial, Inc. will sell several title plants and related assets in the Portland, Oregon, and Detroit, Michigan, metropolitan areas, and in four other Oregon counties. Title plants are databases used by abstractors, title insurers, title insurance agents, and others to determine the ownership of, and interests in, real property in connection with underwriting and issuance of title insurance policies and for other purposes. According to the FTC, Fidelity's acquisition of the LandAmerica assets was anticompetitive in several local markets for the provision of title insurance information services by title plants. The FTC's complaint charges the acquisition reduced competition in six geographic areas: 1) the Portland, Oregon, metropolitan area, consisting of Clackamas, Multnomah, and Washington counties; 2) Benton County, Oregon; 3) Jackson County, Oregon; 4) Marion County, Oregon; 5) Linn County, Oregon; and 6) the Detroit, Michigan, metropolitan area consisting of Oakland, Macomb, and Wayne counties.

**25. 0810245 - AEA Investors / Wilh.Werhahn**

7 /14/2010

Manufacturing – Industrial Goods

<http://www.ftc.gov/os/caselist/0810245/index.shtm>

Houghton International, Inc., the leading North American provider of hot rolling oil used to process aluminum, agreed to sell some of the assets it acquired in 2008 through its purchase of D.A. Stuart GmbH, a transaction that included multiple product markets. The FTC's investigation found that Houghton's acquisition of D.A. Stuart GmbH combined the two largest suppliers of aluminum hot rolling oil (AHRO) in North America, giving the combined firm control of almost 75 percent of the North American market. The FTC's complaint alleges that, through its purchase of Stuart, Houghton could unilaterally raise AHRO prices to U.S. consumers. The complaint also alleges that the acquisition could decrease innovation for this vital input into aluminum manufacturing. Under the order settling the FTC's charges, Houghton will sell Stuart's AHRO business to Quaker Chemical Corporation.

**26. 0910125 - Flying J / Big West Oil**

6 /30/2010

Energy – Petroleum

<http://www.ftc.gov/os/caselist/0910125/index.shtm>

The FTC required Pilot Corporation, owner of the largest travel center network in the United States, to sell 26 locations as part of a settlement that will replace the competition lost because of Pilot's proposed \$1.8 billion acquisition of Flying J Inc.'s travel center network. Pilot has agreed to sell the travel centers, which provide diesel, food, parking, and other amenities for truckers, to Love's Travel Stops and Country Stores, the smallest national travel center operator, currently concentrated in the South. According to the FTC's complaint, the deal between Pilot and Flying J would have reduced competition for certain long-haul trucking fleets for which Pilot and Flying J were the first and second best choices for their diesel needs.

**27. 0910135 - Varian, Inc. / Agilent, Inc.**

5 /14/2010

Information and Technology – Other

<http://www.ftc.gov/os/caselist/0910135/index.shtm>

Agilent Technologies, Inc. and Varian, Inc., two leading global suppliers of high-performance scientific measurement instruments, have agreed to sell three of their product lines in order to proceed with their proposed \$1.5 billion merger. According to the FTC's complaint, Agilent's acquisition of Varian would have violated U.S. antitrust laws by reducing competition for three types of scientific measurement instruments because the companies currently compete with one another in those markets. To resolve these competitive concerns, the parties have agreed to an FTC order requiring them to sell assets related to the manufacture and sale of: 1) Micro Gas Chromatography (Micro GC) instruments; 2) Triple Quadrupole Gas Chromatography-Mass Spectrometry (3Q GC-MS) instruments; and 3) Inductively Coupled Plasma-Mass Spectrometry (ICP-MS) instruments.

<http://www.ftc.gov/os/caselist/1010013/index.shtm>  
 Service Corporation International (SCI), the nation's largest provider of funeral and cemetery services, has settled Commission charges that its proposed acquisition of Keystone North America Inc. (Keystone), the fifth-largest funeral and cemetery services provider in North America, raises antitrust concerns in the markets for both funeral services and cemetery services. The order requires SCI to sell 22 funeral homes and four cemeteries in 19 local markets to ensure competition is preserved following its acquisition of Keystone.
- 
- 29. 0910133 - PepsiCo Inc. / Pepsi Bottling**      2 /26/2010      Manufacturing – Food & Beverages  
<http://www.ftc.gov/os/caselist/0910133/index.shtm>  
 The Commission required that carbonated soft drink company PepsiCo, Inc. restrict its access to confidential business competitive information of rival Dr Pepper Snapple Group as a condition for proceeding with PepsiCo's proposed \$7.8 billion acquisition of its two largest bottlers and distributors, which also distribute Dr Pepper Snapple Group carbonated soft drinks.
- 
- 30. 0910159 - Danaher Corp / MDS**      1 /27/2010      Health Care – Medical Equipment/Devices  
<http://www.ftc.gov/os/caselist/0910159/index.shtm>  
 The Commission challenged Danaher's proposed acquisition of MDS Analytical Technologies, requiring that MDS divest its assets related to its laser microdissection business. The proposed settlement is designed to preserve competition in the North American market for laser microdissection devices – a key tool for scientific research.
- 
- 31. 0910068 - Agrium / CF Industries**      12/23/2009      Manufacturing – Industrial Goods  
<http://www.ftc.gov/os/caselist/0910068/index.shtm>  
 Agricultural products supplier Agrium Inc. has agreed to sell a range of assets as part of an agreement with the Federal Trade Commission that will allow the company to move forward with its acquisition of competitor CF Industries Holdings, Inc. The proposed consent order settles charges that the acquisition would have eliminated competition in the market for anhydrous ammonia fertilizer, a product that farmers rely on to grow their crops.
-

<http://www.ftc.gov/os/caselist/0910116/index.shtm>  
 The Commission challenged that Watson Pharmaceuticals, Inc.'s acquisition of Robin Hood Holdings Limited, owner of Arrow Pharmaceuticals, would have harmed consumers by eliminating future competition for important generic drugs used to treat Parkinson's disease (cabergoline) and the side effects of chemotherapy (dronabinol). The Commission's order requires the firms to sell assets related to the two drugs to FTC-approved buyers and to ensure the acquirers have the means to compete effectively in the future.

The Commission challenged Pfizer Inc.'s proposed \$68 billion acquisition of Wyeth and required significant divestitures to preserve competition in multiple U.S. markets for animal pharmaceuticals and vaccines. The proposed consent order remedies the anticompetitive effects the Commission believes are likely to result from the transaction in numerous markets for animal vaccines and animal pharmaceutical products. After a thorough investigation, the Commission concluded that the transaction does not raise anticompetitive concerns in any human health product markets.

**37. 0910086 - K&S AG / Dow Chemical**

<http://www.ftc.gov/os/caselist/0910086/index.shtm>

The Federal Trade Commission announced a consent order that will maintain competition in the market for bulk de-icing road salt in Maine and Connecticut that otherwise would have been lost as a result of K+S Aktiengesellschaft's (K+S) \$1.68 billion proposed acquisition of Morton International, Inc. To protect state and local governments from higher prices, the order requires K+S's U.S. subsidiary, International Salt Company LLC (ISCO), to sell its bulk de-icing salt assets in Maine to Eastern Salt Company, Inc., and to sell a similar set of assets in Connecticut to Granite State Minerals, Inc.

<http://www.ftc.gov/os/caselist/0810265/index.shtm>

BASF has settled Commission charges that its proposed \$5.1 billion acquisition of rival chemical manufacturer Ciba Holding Inc. would be anticompetitive and violate federal law by reducing competition in the worldwide markets for two high performance pigments. Under the terms of a consent order allowing the transaction to proceed, the FTC requires BASF to sell all assets, including the intellectual property related to the two pigments, bismuth vanadate and indanthrone blue, to a Commission-approved buyer within six months.

**39. 0710230 - Lubrizol / Lockhart Chemical**

2 /26/2009 Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/0710230/index.shtm>

In February the Commission challenged Lubrizol Corporation's consummated 2007 acquisition of the oxidate assets of The Lockhart Company which had the effect of substantially lessening competition in the already highly concentrated U.S. market for chemical rust inhibitors. These inhibitors are commonly used to prevent rusting during the manufacture of metal products such as automobiles and other heavy equipment. According to the Commission's complaint the acquisition removed Lubrizol's last substantial competitor in the relevant market. In addition, the Commission challenged a non-compete agreement included in the terms of the acquisition which prevented Lockhart from competing in the relevant market for 5 years as anticompetitive because it restrained the ability of new firms to enter the market. The Commission issued a consent order remedying its anticompetitive concerns requiring the divestiture of the oxidate assets in question to Additives International and the elimination of the non-compete agreement.

**40. 0910000 - Getinge AB / Datascope Corp**

1 /29/2009 Health Care – Medical Equipment/Devices

<http://www.ftc.gov/os/caselist/0910000/index.shtm>

In January, the Commission challenged Getinge AB's proposed \$865 million acquisition of rival Datascope Corporation as anticompetitive in the market for endoscopic vessel harvesting devices (EVHs). EVHs are used during coronary artery bypass graft surgery where a vein is removed from a patient's leg or arm to replace a damaged or blocked coronary artery. According to the Commission's complaint, the acquisition as proposed would substantially lessen competition in the relevant market, giving Getinge nearly a 90% market share and the ability to unilaterally increase prices while reducing the likelihood of innovation. The Commission issued a consent order remedying its concerns requiring that Datascope divest its EVH assets to Sorin Group USA, an FTC approved buyer, within 10 days of consummating the transaction.

**41. 0810214 - Dow Chemical / Rohm & Haas**

1 /23/2009 Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/0810214/index.shtm>

In January, the Commission challenged Dow Chemical's \$18.8 billion proposed acquisition of Rohm & Haas Company as anticompetitive in the markets for various acrylics and other industrial chemicals used to make coated paper products, paints, and adhesives. According to the Commission's complaint, the product markets in question include acrylic monomers, used in goods ranging from hygiene products to paints and industrial coatings, hollow sphere particles, used in paper products, and acrylic latex polymers, used in traffic paints. Given the high concentration in each of the product markets, the proposed acquisition would have represented a merger to monopoly. To remedy its anticompetitive concerns, the Commission is requiring Dow to divest its assets in the aforementioned product markets to an FTC approved buyer. \*Update\* On March 19, 2012, following a public comment period, the FTC approved an application by The Dow Chemical Company to sell a chemical production facility and associated property in Torrance, California, to Hager Pacific Acquisitions LLC.

**42. 0810240 - King Pharmaceuticals / Alpharma**

12/29/2008 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/0810240/index.shtm>

In late 2008, the Commission issued a consent order to restore competition in the market for oral long-acting opioids (LAOs). The FTC intervened in King Pharmaceutical's proposed \$1.6 billion acquisition of rival drug-maker Alpharma Inc. because the transaction would have joined the two leading producers of morphine sulfate oral LAO's in the United States, a market which was already highly concentrated and which had annual sales of \$4 billion in 2007. In order to maintain competition in the market, the Commission's consent order requires King to divest its Kadian business to Actavis, a company which already manufactured the drug for King, and which could then produce a generic equivalent of the drug sooner than would have been permitted under King's patent, which would not have expired until 2010.

43. **0610123 - Inverness Medical Innovations, Inc. / ACON** 12/23/2008 Health Care – OTC Drugs/Devices

<http://www.ftc.gov/os/caselist/0610123/index.shtm>

In order to restore competition in the U.S. market for consumer pregnancy tests, the Commission effectively reversed a consummated transaction in which Inverness Medical Innovations, a 70% market share holder, purchased the assets related to the development of a water-soluble dye based pregnancy test from ACON Laboratories in order to protect its monopoly power in the market. According to the Commission's complaint, Inverness restrained competition in two ways. First, Inverness issued covenants not to compete to ACON, took profits from ACON's joint venture with Church & Dwight, and purchased intellectual property rights which would restrict ACON from developing competing products. Second, Inverness limited product innovation by purchasing, but not using, the water-soluble dye test technology purchased from ACON, one of the only companies utilizing that technology. The Commission's consent order ended any restrictions Inverness had over the joint venture between ACON and Church & Dwight, and required that Inverness divest its assets relating to the water-soluble dye technology, and its related pregnancy test product.

44. **0810224 - Teva Pharmaceutical / Barr Pharmaceuticals** 12/19/2008 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/0810224/index.shtm>

In December 2008, the Commission settled antitrust concerns raised by the proposed \$8.9 billion acquisition of Barr Pharmaceuticals by Teva Pharmaceutical Industries. The proposed acquisition would have lessened competition in the markets for 17 commonly used generic medications including drugs used in the treatment of cancer, bacterial infections, diabetes, acid reflux, and depression as well as several varieties of oral contraceptives. According to the Commission's complaint, the acquisition would have likely led to higher prices for consumers through the removal of one of only four competitors in each of these markets. The Commission's consent agreement requires both Teva and Barr to sell assets in 29 U.S. markets to either Watson Pharmaceuticals or Qualitest Pharmaceuticals.

45. **0710212 - Huntsman Corporation / Hexion Specialty Chemicals Inc.** 10/2 /2008 Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/0710212/index.shtm>

The FTC intervened in Hexion LLC's proposed acquisition of Huntsman Corp., issuing a consent order which requires the divestiture of Hexion's specialty epoxy business, and prevents the sharing of sensitive and non-public information which could lead to coordination of prices. Huntsman and Hexion are producers of high-performance and specialty chemicals used in the aerospace and alternative energy industries. Subsequently, Hexion LLC and Huntsman Corporation petitioned the Commission to reopen and set aside two orders related to their proposed merger because they terminated their planned merger and withdrew their premerger notification filings. Following a public comment period, the Commission has granted, in part, a petition by Hexion LLC and Huntsman Corporation requesting that two FTC Orders related to their proposed merger be reopened and set aside. The agency determined that the firms have satisfactorily shown that changed conditions require that the matter be reopened. In particular, the firms have abandoned the acquisition that the Orders were intended to remedy. In its decision, the Commission set aside the Asset Maintenance Order in its entirety, as well as the Decision and Order regarding Huntsman.

46. **0810133 - Reed Elsevier PLC / ChoicePoint Inc.** 9 /16/2008 Information and Technology – Software/Databases

<http://www.ftc.gov/os/caselist/0810133/index.shtm>

In September, 2008, the Commission challenged Reed Elsevier's \$4.1 billion proposed acquisition of ChoicePoint, which would have combined the two leading providers of electronic public record services provided to U.S. law enforcement customers. Public records services compile public and non-public records about individuals and businesses, including credit data, criminal, motor vehicle, property, and employment records, all used by law enforcement as an investigative tool in solving a wide variety of crimes. The transaction, as proposed, would have removed the intense rivalry that had led to lower prices, product innovations, and improved services and support for law enforcement customers by eliminating the competition between Reed Elsevier's LexisNexis product and ChoicePoint's AutoTrackXP and CLEAR products. The Commission required divestiture of ChoicePoint's product lines to Thomson Reuters Legal Inc. The Commission worked with the Attorneys General of eighteen states on this investigation.

47. **0810146 - Fresenius SE / Daiichi Sankyo Company, Limited** 9 /15/2008 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/0810146/index.shtm>

The Commission challenged Fresenius Medical Care's proposed purchase of an exclusive sublicense for the manufacture and supply of the drug Venofer to US dialysis clinics from Daiichi Sankyo Company. Venofer is an intravenously administered iron sucrose preparation used primarily to treat iron-deficiency anemia in dialysis patients with chronic kidney disease. The agreement would have given Fresenius, the largest operator of dialysis clinics in the country, the ability to artificially inflate its internal costs for Venofer, and effectively increase Medicare reimbursement payments for all buyers of the drug. In order to settle these concerns about anticompetitive self-dealing, the Commission issued a consent order restricting Fresenius from reporting internally inflated Venofer prices by mandating that the current market price for the drug be used in reporting the average selling price to Medicare.

8 /13/2008

Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/0710193/index.shtm>

The Commission charged that Sun Pharmaceutical Industries Ltd's proposed acquisition of Taro Pharmaceuticals Industries, Ltd would substantially reduce competition, likely resulting in higher prices for three distinct generic formulations of the anticonvulsant drug carbamazepine, used widely as an antiepileptic and to prevent and control seizures. The proposed deal would have reduced the number of drug suppliers to a level where the number of competitors has a direct and substantial impact on prices. In order to remedy these concerns, Sun agreed to divest all of its rights and assets needed to develop three generic forms of carbamazepine: 1) immediate-release tablets; 2) chewable tablets; and 3) extended-release tablets.

**49. 0810045 - McCormick & Company / Unilever Group**

7 /30/2008

Manufacturing – Food &amp; Beverages

<http://www.ftc.gov/os/caselist/0810045/index.shtm>

The Commission challenged McCormick & Company's \$605 million acquisition of Lawry's and Adolph's brands of seasoned salt products from Unilever N.V., alleging that the transaction would be detrimental to competition in the highly concentrated U.S. market for seasoned salts. According to the Commission's complaint, the proposed deal would combine the two companies that comprise almost the entire \$100 million market for seasoned salt, increasing the likelihood that McCormick would be able unilaterally to increase prices. McCormick agreed to divest its Season-All business to Morton, an FTC approved buyer, within 10 days of completing the acquisition.

**50. 0810119 - Pernod Ricard / V&S Spirits**

7 /17/2008

Manufacturing – Food &amp; Beverages

<http://www.ftc.gov/os/caselist/0810119/index.shtm>

The Commission challenged Pernod Ricard SA's proposed \$9 billion acquisition of V&S Vin & Spirit as harmful to competition among suppliers of "super-premium" vodka. The proposed deal would have merged the two leading brands, Absolut and Stolichnaya, and allowed Pernod to raise prices profitably on both brands. Additionally, the complaint alleges that the markets for cognac, domestic cordials, coffee liqueur, and popular gin would be subject to anticompetitive effects because sensitive pricing and promotion information for Beam Global Brands, a competitor in these product markets, would be available to Pernod after the acquisition as a result of Beam's joint venture with V&S. The Commission settled the charges by requiring Pernod to divest its distribution interests in Stolichnaya Vodka, and to erect a firewall to prevent the sharing of any competitively sensitive information from Beam Global Brands with Pernod employees.

**51. 0810079 - Flow International Corporation / Omax Corp**

7 /10/2008

Manufacturing – Industrial Goods

<http://www.ftc.gov/os/caselist/0810079/index.shtm>

The Commission challenged Flow International Corporation's proposed \$109 million acquisition of rival waterjet manufacturer OMAX Corporation. Both corporations develop, manufacture, and sell computerized waterjet cutting systems which use pressurized water mixed with abrasive garnet particles to cut various materials, including steel and stone. The proposed acquisition would have united the two largest competitors in the market for the manufacture and sale of computerized waterjet cutting systems and allowed Flow to exercise market power and increase prices. Furthermore, the Commission charged that entry would be very unlikely because OMAX received two broad patents relating to the control systems for waterjet cutting systems. The Commission approved a consent agreement requiring OMAX to grant any request for a royalty-free license for its controller patents.

**52. 0710203 - Carlyle Partners IV, L.P. / JP Morgan Chase & Co.**

6 /30/2008

Manufacturing – Chemicals/Industrial Gases

<http://www.ftc.gov/os/caselist/0710203/index.shtm>

The Commission challenged the proposed acquisition by Carlyle Partners IV, L.P. of INEOS Group Ltd., alleging that the deal would be anticompetitive in the highly concentrated Midwestern market for sodium silicate. Sodium silicates are used in detergents and other products, and are important chemicals used by the pulp and paper industry. The acquisition would have joined market leader PQ Corporation, which is owned by Carlyle, with INEOS, the third-largest sodium silicate provider. Under the Commission's order, Carlyle must divest PQ's sodium silicate plant in Utica, Illinois, and all associated intellectual property required to operate the plant to Oak Hill Company within five days of consummating the transaction.

<http://www.ftc.gov/os/caselist/0810073/index.shtm>

The Commission charged that Agrium, Inc.'s \$2.65 billion proposed acquisition of UAP Holding Corporation would reduce transaction would substantially lessen competition in the market for the retail sale of bulk fertilizer and, in some cases, related services by farm stores, in several local markets in Michigan and Maryland. According to the complaint filed by the Commission, the proposed acquisition would eliminate important competition between Agrium and UAP, allowing Agrium to unilaterally increase prices, and increasing the likelihood that the remaining competitors would engage in coordinated interaction to the detriment of fertilizer buyers. The Commission's order requires the divestiture of seven farm stores, five UAP stores in Michigan, and two Agrium locations on the eastern shore of Maryland.

<http://www.ftc.gov/os/caselist/0610209/index.shtm>

The Commission challenged a series of acquisitions by TALX Corporation, a fully owned subsidiary of Equifax, Inc., that lessened competition in the markets for outsourced unemployment compensation management (UCM) and verification of income and employment (VOIE) services. Unemployment compensation management services consist of the administration of unemployment compensation claims filed with a state or territory. Verification of income and employment services consists of providing income and employment information on behalf of employers to third parties, such as lenders or other creditors. According to the Commission's complaint, TALX's series of acquisitions from 2002 to 2005 substantially reduced competition in the nationwide provision of VOIE services and in the provision of outsourced UCM services, and enhanced TALX's ability to unilaterally increase prices and decrease the quality of its services. Under the Commission consent order, TALX has agreed to allow certain customers terminate their agreements and give notice before acquiring, or entering a management contract with, a UCM or VOIE service provider.

55. **0710120 - Great Atlantic & Pacific Tea Company / Pathmark Stores, Inc.** 11/27/2007 Retail – Grocery/Supermarkets

<http://www.ftc.gov/os/caselist/0710120/index.shtm>

The Commission intervened in the proposed \$1.3 billion acquisition of Pathmark Stores by Great Atlantic & Pacific Tea (A&P), alleging the transaction would have reduced competition among grocery stores in the highly concentrated markets of Staten Island and Shirley, Long Island, New York. A&P operates stores under the A&P, A&P Super Foodmart, Food Basics, Food Emporium, Super Fresh, and Waldbaum's banners. The Commission's consent order required A&P to divest five supermarkets in Staten Island, and one supermarket in Shirley.

<http://www.ftc.gov/os/caselist/0710132/index.shtm>

The Commission charged that Schering-Plough's proposed \$14.4 billion acquisition of Organon Biosciences N.V. threatened to substantially reduce competition in the U.S. market for three popular vaccines used to treat poultry, a staple in American food markets. The November 2007 order settling the charges required the sale of assets required to develop, manufacture, and market these vaccines to Wyeth. In addition, Schering-Plough was required to sign a supply and transition services agreement with Wyeth, under which Schering will provide the vaccines for a period of two years, allowing time for the necessary FDA approvals.

57. **0610281 - Compagnie de Saint-Gobain / Owens Corning** 10/26/2007 Manufacturing – Industrial Goods

<http://www.ftc.gov/os/caselist/0610281/index.shtm>

The Commission remedied competitive problems raised by Owens Corning's proposed acquisition of glass fiber reinforcements and composite fabric assets 8 from Compagnie de Saint Gobain. The investigation involved cooperation among staff of the FTC, the European Commission, and Mexico's Federal Competition Commission. After staff from the competition agencies raised antitrust concerns, the parties modified their agreement to exclude Saint Gobain's glass fiber reinforcement assets in the U.S. and certain assets in Europe. The Commission's consent order addressed additional competitive problems in the highly concentrated North American market for continuous filament mat, which is used in the production of non-electrical laminate, marine parts and accessories, and other products. The order requires Owens Corning to divest sufficient U.S. continuous filament mat facilities, assets, and intellectual property to enable the buyer effectively to produce and sell the products in competition with the new Owens Corning/Saint Gobain joint venture.

<http://www.ftc.gov/os/caselist/0710101/index.shtm>

The Commission challenged Kyphon Inc.'s \$220 million proposed acquisition of the spinal assets of Disc-O-Tech Medical Technologies, Ltd. and Discotech Orthopedic Technologies (collectively Disc-O-Tech) as anticompetitive in the market for minimally invasive vertebral compression fracture treatment products in the U.S. Disc-O-Tech's Confidence products promised real benefits to patients in treating these painful fractures in a minimally invasive way, and threatened Kyphon's near-monopoly on treatment options. The Commission's consent order required that Kyphon divest all assets, intellectual property and development rights related to the Confidence brand to an FTC-approved buyer

59. **0710164 - Merck KGaA / Mylan Laboratories, Inc. and Mylan Pharmaceuticals, Inc.** 9 /27/2007 Health Care – Prescription Drugs

<http://www.ftc.gov/os/caselist/0710164/0710164.shtm>

The Commission ordered divestitures to resolve competitive concerns in the U.S. market for five generic drugs stemming from Mylan Laboratories' proposed acquisition of the generic arm of Merck Pharmaceuticals, a transaction valued at approximately \$6.6 billion. Under a September 2007 consent order with the Commission, Mylan and Merck must divest all assets relating to flecainide acetate tablets, acebutolol hydrochloride capsules, guanfacine hydrochloride tablets, nifedipine hydrochloride capsules, and sotalol hydrochloride. The generic drugs at issue are used for the treatment of many conditions, including hypertension and heart arrhythmia. The order requires the divestiture of all assets related to the relevant products to Amneal Pharmaceuticals, a generic drug manufacturer.

The Commission settled charges stemming from American Renal Associates' (ARA) proposed acquisition of assets from Fresenius AG, which would have made ARA the only operator of dialysis clinics in the Warwick/Cranston area of Rhode Island. The purchase agreement called for the sale of five Fresenius clinics to ARA, including two in the Warwick/Cranston area, and the closure of an additional three Fresenius clinics in Rhode Island and Massachusetts. The parties terminated their purchase agreement after FTC staff raised antitrust concerns, but the Commission challenged the closure of the three clinics as a naked agreement to pay a competitor to exit the market, and also alleged a Section 7 violation in the Warwick/ Cranston market for dialysis services. The Commission's order bars the parties from entering into any agreement to close dialysis clinics, and requires ARA to notify the Commission if it intends to acquire any dialysis centers in the Warwick/Cranston area for a period of 10 years.

<http://www.ftc.gov/os/caselist/0710168/index.shtm>

The Commission charged that the acquisition of K2, Inc, a sporting goods manufacturer, by Jarden Corporation would likely harm competition. The proposed \$1.2 billion transaction would have joined two of the nation's leading producers of monofilament fishing line, the most common type of line used in the United States. The consent order settling the charges requires Jarden to sell all assets related to the manufacture and sale of four varieties of monofilament fishing line to sporting goods company W.C. Bradley/Zebco.

<http://www.ftc.gov/os/caselist/0610257/0610257.shtm>

The Commission charged that Rite Aid Corporation's \$3.5 billion acquisition of competitors Brooks and Eckerd Pharmacies from the Canadian drug store operator Jean Coutu Group, Inc. was anticompetitive and required the sale of retail pharmacies located in 23 cities along the East Coast. According to the Commission's complaint, the merger would have substantially reduced competition in the sale of pharmacy services to customers in those areas, where customers view stores operated by the two companies as their two best options. The consent order requires Rite Aid to divest pharmacies in those cities to buyers preapproved by the Commission. The investigation, which included cooperation from the state attorneys general of Maryland, New Jersey, New York, Pennsylvania, Vermont, Virginia, and Maine, was handled by the agency's Northeast Regional Office.

The Commission prevented a merger-to-monopoly in the sale of generic isradipine capsules by challenging the proposed \$235 million purchase of Abrika Pharmaceuticals, Inc., by the Actavis Group, an international generic pharmaceuticals company. To maintain competition in the market for this important generic drug, used to lower blood pressure and to treat hypertension, ischemia, and depression, the consent order requires the divestiture of all rights and assets necessary to produce, market, and sell generic isradipine to Cobalt Laboratories, Inc.

**64. 0610197 - Kinder Morgan inc.**

The order settles charges that the proposed \$22 billion deal whereby energy transportation, storage, and distribution firm Kinder Morgan, Inc. (KMI) would be taken private by KMI management and a group of investment firms, including private equity funds managed and controlled by The Carlyle Group (Carlyle) and Riverstone Holdings LLC (Riverstone) would threaten competition between KMI and Magellan in eleven metropolitan areas in the Southeast, likely resulting in higher prices for gasoline and other light petroleum products. The order requires that Carlyle's and Riverstone's interest in Magellan become a passive investment, by requiring them to: (1) removing all of their representatives from the Magellan Board of Managers and its boards of directors, (2) ceding control of Magellan to its other principal investor, Madison Dearborn Partners, and (3) not influencing or attempting to influence the management or operation of Magellan.

The consent order settled charges that General Dynamics' proposed \$275 million acquisition of SNC Technologies, Inc. and SNC Technologies, Corp. (collectively, SNC) would likely undermine competition by bringing together two of only three competitors providing the U.S. military with melt-pour load, assemble, and pack (LAP) services used during the manufacture of ammunition for mortars and artillery. Absent relief, the proposed acquisition would likely force the U.S. military to pay higher prices for these munitions. <http://www.ftc.gov/os/caselist/0610217/0610217.shtm>

The consent order settles charges that Barr Pharmaceutical, Inc.'s proposed acquisition of Pliva d.d for approximately \$2.5 billion would have eliminated current or future competition between Barr and Pliva in certain markets for generic pharmaceuticals treating depression, high blood pressure and ruptured blood vessels, and in the market for organ preservation solutions, thereby increasing the likelihood that consumers would pay more for these vital products. In settling the Commission's charges, Barr is required to sell its generic antidepressant trazodone and its generic blood pressure medication triamterene/HCTZ. Barr also is required to divest either Pliva's or Barr's generic nifedipine for use in treating ruptured blood vessels in the brain. Finally, Barr is required to divest Pliva's branded organ preservation solution Custodial.

<b>118. 0010186 - Svedala Industri AB / Metso Corp</b>	9 /7 /2001	Manufacturing – Industrial Goods <a href="http://www.ftc.gov/os/caselist/c4024.shtm">http://www.ftc.gov/os/caselist/c4024.shtm</a>
--------------------------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------------------

Metso settled charges that if its acquisition of Svedala Industries AB were allowed to proceed as planned, competition would be lessened in four rock processing equipment markets: primary gyratory crushers; jaw crushers; cone crushers; and grinding mills. The firms agreed to divest Metso's worldwide primary gyratory crusher and grinding mill businesses and Svedala's worldwide jaw crusher and cone crusher businesses. The three crusher businesses would be purchased by Sandvik AB, a Swedish corporation; the grinding mill business would be purchased by Outokumpu of Finland. Metso and Svedala are the two largest suppliers of rock processing equipment in the world.

<b>119. 0110011 - Chevron Corp. / Texaco, Inc.</b>	9 /7 /2001	Energy – Petroleum <a href="http://www.ftc.gov/os/caselist/c4023.shtm">http://www.ftc.gov/os/caselist/c4023.shtm</a>
----------------------------------------------------	------------	-------------------------------------------------------------------------------------------------------------------------

A consent order permitted the \$45 billion merger of Chevron and Texaco In., but required significant divestitures in the petroleum industry, including gasoline marketing assets, refining and bulk supply facilities, crude oil pipeline interests and terminaling facilities.

<b>120. 0010112 - Lafarge S.A. / Blue Circle Industries</b>	6 /18/2001	Manufacturing – Industrial Goods <a href="http://www.ftc.gov/os/caselist/c4014.shtm">http://www.ftc.gov/os/caselist/c4014.shtm</a>
-------------------------------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------------------

The consent order required the divestiture of Blue Circle Industries PLC's cement business serving the Great Lakes region of Ohio, Michigan, Illinois, Wisconsin and New York; its cement business in the Syracuse, New York; and its lime business in the southeast United States. These divestitures settled antitrust concerns stemming from Lafarge's proposed merger with Blue Circle. The two firms are market leaders in the industry for cement and lime.

<b>121. 0010212 - Siemens AG / Vodafone Group Plc</b>	4 /6 /2001	Information and Technology – Software/Databases <a href="http://www.ftc.gov/os/caselist/c4011.shtm">http://www.ftc.gov/os/caselist/c4011.shtm</a>
-------------------------------------------------------	------------	------------------------------------------------------------------------------------------------------------------------------------------------------

Siemens settled charges relating to its proposed \$9 billion acquisition of Atecs Mannesmann AG, a subsidiary of Vodafone. The consent order requires, among other things, the divestiture of Vodafone's Mannesmann Dematic Postal Automation business to Northrop Grumman Corporation. Siemens and Vodafone, through its Dematic subsidiary, are the two leading suppliers of postal automation systems in the world.

<b>122. 0010067 - DTE Energy Co. / MCN Energy</b>	3 /22/2001	Energy – Natural Gas <a href="http://www.ftc.gov/os/caselist/c4008.shtm">http://www.ftc.gov/os/caselist/c4008.shtm</a>
---------------------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------

A final order permitted the \$4 billion merger of MCN, a natural gas utility servicing communities in Michigan, and DTE, a public utility engaged in the generation and sale of electricity in Detroit and southeastern Michigan. The consent order, designed to resolve Commission concerns that the merger would lessen competition in the local distribution of electricity and in the local distribution of natural gas in the city of Detroit and in the Michigan counties of Macomb, Monroe, Oakland, Washtenaw and Wayne. MCN is the parent of Michigan Consolidated Gas Company and DTE is the parent holding company of The Detroit Edison Company.

<b>123. 9910301 - Dow Chemical Co.</b>	2 /5 /2001	Manufacturing – Industrial Goods <a href="http://www.ftc.gov/os/caselist/c3999.shtm">http://www.ftc.gov/os/caselist/c3999.shtm</a>
----------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------------------

Dow settled antitrust concerns relating to its proposed merger with Union Carbide Corporation. Dow agreed to divest and license intellectual property necessary to the production of linear low-density polyethylene -an ingredient used in premium plastic products such as trash bags and sealable food pouches -to BP Amoco plc.

<b>124. 0010172 - Koch Industries Inc / Entergy</b>	1 /31/2001	Energy – Natural Gas <a href="http://www.ftc.gov/os/caselist/c3998.shtm">http://www.ftc.gov/os/caselist/c3998.shtm</a>
-----------------------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------

A consent order settles allegations that Entergy-Koch LP's (a limited partnership owned equally by Entergy Corporation and Koch) acquisition of 50 percent of the Gulf South Pipeline Company, LP from Koch would lessen competition for the sale of electricity to consumers in Louisiana and western Mississippi and the distribution of natural gas to consumers in New Orleans and Baton Rouge. Entergy is the regulated electric and natural gas utility in parts of Louisiana and Mississippi. The order requires Entergy to establish a transparent process to buy natural gas and natural gas transportation that will assist state regulators in determining whether Entergy purchased gas supplies at inflated prices from its Entergy-Koch partnership.

<b>125. 0010086 - El Paso Energy Co / Coastal Corp</b>	1 /29/2001	Energy – Natural Gas <a href="http://www.ftc.gov/os/caselist/c3996.shtm">http://www.ftc.gov/os/caselist/c3996.shtm</a>
--------------------------------------------------------	------------	---------------------------------------------------------------------------------------------------------------------------

A modified consent order allows the merger of El Paso and Coastal Corporation and requires the divestiture of more than 2,500 miles of gas pipeline system in Florida, New York and the Midwest. The modifications relate to the establishment of the Development Fund for the Green Canyon pipeline acquirer and is described in the final order.

 TRW settled antitrust allegations stemming from its acquisition of BDM, a firm that provides, among other things, systems engineering and technical services (SETA) to the Department of Defense. TRW was part of one of two teams bidding for DOD'S Ballistic Missile Defense Organization's lead system integrator program. The acquisition would have placed TRW into BDM's role of SETA contractor whereby TRW could gain sensitive competitive information, including cost and bidding information, about its only other competitor for the program. According to the complaint issued with the consent order, this situation could have resulted in less aggressive bidding and higher prices for the leading system integrator program, or put TRW in a position to favor its own team by setting unfair procurement specifications or submitting unfair proposal or performance evaluations. The consent order requires TRW to divest the SETA contract to a Commission approved acquirer.

The orders require the divestitures of 34 Thrifty drug stores and 127 Rite Aid drug stores in the areas by March 21, 1997.

**209. 9710006 - The Boeing Co**

12/6 /1996 Defense – Equipment and Engineering Services

<http://www.ftc.gov/os/caselist/c3723.shtm>

Consent order permits the acquisition of Rockwell International Corporation's Aerospace and Defense business subject to a divestiture and other conditions. Currently, there are two teams competing to develop high-altitude endurance unmanned air vehicles for the Department of Defense's Advance Research Projects Agency -- Boeing/Lockheed (developing Tier III Minus, a stealthy, high-altitude endurance unmanned air vehicle) and Rockwell/Teledyne (developing Tier II Plus, a non-stealthy, high-altitude endurance unmanned air vehicle). As a result of the acquisition, Boeing would become a member of both teams and could increase the price of the components it supplies or reduce its investment in technology and quality. The consent order allows Teledyne, if it chooses, to replace Rockwell as its wing supplier without incurring any significant costs or risks to the project. Terms of the consent order require Boeing to deliver the assets necessary to produce the Tier II Plus wings to businesses designated by Teledyne. The order also establishes a "firewall" between Boeing's Tier III Minus business and the Rockwell North American Aircraft Division that provides Tier II Plus wings.

<b>224. 9610018 - General Motors / Litton Systems</b>	2 /9 /1996	Defense – Equipment and Engineering Services	<a href="http://www.ftc.gov/opa/1996/02/hughes.shtm">http://www.ftc.gov/opa/1996/02/hughes.shtm</a>
Final order settles charges that the acquisition of Irek Optical System Division from Litton Industries, Inc. could increase the bid prices and decrease investment for technology in the development of deformable mirrors, a component of an optics system used by the Air Force's Airborne Laser Program in its anti-missile defense system. The development of the Air Force program has been contracted to two teams, Boeing/Lockheed and Rockwell/Hughes. Deformable mirrors are manufactured by only two firms in the U.S. --Itek and Xinetics Inc. (Itek supplies the Boeing team; Xinetics supplies the Rockwell team under an exclusive contract with Hughes.) According to the complaint issued with the proposed settlement, if Hughes completes its original purchase plan for Itek, Hughes will be involved in the supply of deformable mirrors to both teams.
