Washington, DC 20580

Greetings,

I am Grace D. McGrath, owner/manager of Perry's Cleaners in Waterbury, CT. My six thousand square foot plant processes over \$ 400,000.00 in dry cleaning annually while employing thirteen people.

I am extremely desirous of full and complete care labeling instructions on all applicable garments. Many of the present "headaches" I experience due to the slipshod labeling methods and unclear instructions will be eliminated and responsibility for proper care will be made much easier.

It is vital that record be kept open so that the necessary dialog between the various parts of the garment industry, cleaning industry and other interested parties be allowed to flow. Only in this way will a meaningful care labeling rule be enacted. I am presently asking my customers what they would like to see on these labels. I am also asking what they would do if clear choices were presented and whether the present labeling system is clear to them. It is evident that they are in favor of clearer, more concise labeling that gives them correct choices. They presently find the labeling confusing and ambiguous. I, personally, need more time to survey my customers so that the type of care information they desire might be able to be included.

Please keep the dialog flowing and allow the people it really affects, the users of the garments, to be heard.

Sincerely,

Grace D. McGrath
President
