Testimonials:

"You know how the camera adds at least 10 pounds. A week of NordiCaLite before meals and I'm ready for the skimpiest bathing suit. It takes the weight off--especially those pockets of cellulite that exercise can't budge."

-- Swimsuit issue cover model Varnishke

"On regular diets, I'd starve and starve and hardly lose a pound. But NordiCaLite gave my problem metabolism the jump start it needed. I lost 27 pounds in 5 weeks and went from a size 16 to a size 8 -- while enjoying all my favorites foods."

-- Astrid S.

The practitioners of Scandinavia discovered that only one tablespoon of NordiCalite in a glass of hot water at least 30 minutes before each meal can burn up to 600% MORE FAT! Results are achieved quickly and intensified by eating less and exercising. Lose the weight naturally and keep it off. Gain a sense of Pride in your body.

Substantiation by NordiCaLite

- 172 Letters from satisfied customers
- “My Amazing Success with NordiCaLite,” by Varnishke, Cosmopolitan, July 1999.
- “NordiCaLite Research Report”
- “NordiCaLite and Metabolic Effects”

“NordiCaLite Research Report,”
by Karl B. Thinner, Ph.D,
Journal of Self-Published Research, October 2000.

- Authored by Dr. Thinner, NordiCaLite board member
- 50 male college students volunteered for NordiCaLite study and agreed to use product for 60 days
- 25 males in test group, 25 males in control group
- 70% of males in test group lost an average of 20 pounds
- 30 men dropped out of the Study before the 60 day period was finished

“NordiCaLite and Metabolic Effects,”
by Jane Marsupial,
Journal of Biochemistry, June 2002.

- NordiCaLite was injected into 10 kangaroos 3x daily for 90 days
- Kangaroos treated with NordiCaLite lost approximately 5% of their body weight
- Kangaroos without NordiCaLite treatment gained approximately 5% of their body weight
- Study tracked kangaroo weights and metabolic activity until 6 months. Test group of kangaroos reduced to 3. Control group remained at 10.
