Secretary Donald Clark:

I want to express by sincere disdain for the proposal currently in review by your agency regarding the definition of **Made in the USA.**

There should be no **confusion** in the American public of what this means. Made in the **USA** does not mean "substantially" made here. How would you define "substantially" ? However you define it, once the cat is out of the bag, manufacturer's **will** define it to suit their purposes. I'm outraged that **the** FTC has let this issue get this far! It's just wrong to cheapen who we are and what our flag stands for.

Products made in **California, Georgia,** Illinois, Michigan, and New Jersey are Made in the **USA.** Products or any parts thereof made in **China,** Mexico, the **Phillipines** and Thailand are not. It's as simple as that!

Sincerely,

James J. Levey
