Dear Mr. Boyd:

PUBLIC AVAILABILITY
OF UNOCAL RESEARCH DATA

On June 20, 1991, certain Unocal representatives met with Peter Venturini and other members of his staff. During that meeting, we presented the results of three phases in Unocal's Vehicle/Fuels testing program. We subsequently made the data base available to the staff and agreed to make the data public if necessary in the development of a predictive model for use in the certification of reformulated gasoline.

The staff has now proposed to develop such a predictive model and requested that we make the data public.

Please be advised that Unocal now considers this data to be non-proprietary and available to CARB, environmental interest groups, other members of the petroleum industry, and the general public upon request.

Sincerely yours,

Dennis W. Lamb
