What Can HGH Revolution Do For You?

Prescription HGH treatments have helped millions of men and women reverse some of the key effects of aging, but such treatments are very costly and invasive. Now, an all-natural product like HGH Revolution can produce outstanding results by enabling your own body to naturally produce more HGH. This is done by a complex chain of Amino-Acids that trigger IGF-1 (Insulin Growth Factor –1) production. IGF-1 causes your body to produce more HGH and replenish cell structures that otherwise would be left to age.

By starting now, you can dramatically improve the quality of your life

Replace Fat With Lean Muscle.
Enhance Sexual Performance.
Reduce Wrinkles, Improve Skin.

Experience, Deep, Restful Sleep.
Increase Energy.
Look and Feel Great Every Day.

Overview and Directions

HGH Revolution has a proprietary formula that ensures you will be taking the best natural growth hormone product on the market today!

We have detailed each natural ingredient in HGH Revolution so you can not only see how we've made the complex formulation easy to use, but you'll discover exactly how HGH Revolution works with your body to produce outstanding results that will enable you to feel younger, better and have more energy in every aspect of your life.

Directions: Use as a dietary supplement. Shake gently before use. Spray (3) full sprays under the tongue (2) times per day. We recommend once in the morning, and again, at night before bed. For maximum absorption, to not eat or drink anything 30 minutes before or after administering of this supplement. Each 30 mg bottle contains approximately a 30 day supply.*

For Additional Benefit: Take a deep, diaphragmatic breath after each spray.*

Ingredients Details

Supplement Facts
Serving Size

Number of Sprays Per Bottle: 180
 1 ml- 6 sprays

Growth Factor Complex 2000 ng

Alpha GPC (Alpha Glycerl-Phosphoryl Choline) Increases in endogenous human Growth Hormone secretion by the anterior pituitary in conjunction with Growth Hormone Releasing Hormone (GHRH); that is, both Alpha-GPC and GHRH act concertedly to naturally stimulate the release of HGH.

GABA (Gamma Amino Butyric Acid) Renowned as a natural calming agent in the brain, is manufactured from amino acid glutamine and glucose. Another function of GABA is that it helps stimulate release HGH from the pituitary.

Mucuna pruriens Has been shown to promote the release of human growth hormone (HGH), and has the ability to bring other endocrine gland hormones to a more youthful level.

Moomiyo Extract Has its origins as a powerful supplement used by elite Russian athletes for its anabolic and restorative capability. In smaller doses studies have proven that it can be effective at preventing age-related hormone dependent disorders and, therefore, should be considered for non-competitive athletes over the age of forty who still participate in fitness programs.

What Our Customers Say

Dave Kay, 44, CA

"I've been using HGH products for a while now and was pleased to find HGH Revolution. Your product is excellent and your price is the best I've found anywhere. Keep up the good work."

More Success Stories

This 1000 Nanogram per daily use complex consists of a precise blend of amino acids including Ornithin Alpha Ketoglutarate, L-Glutamine, L-Arginine, L-Valine, L-Isoleucine, L-Tryosine and Glycine). These properties work in conjunction to stimulate the pituitary gland to secrete growth hormone into the liver, creating strong supplies of IGF-1 to the body.

Other Ingredients.

Other Ingredients: Deionized Water, Lecithin Phospholipids, Sodium Citrate, Citric Acid, Potassium Sorbate, Maltodextrin, Methylparaben, Propylparaben, Natural & Artificial Flavors
