

FTC Administrators and Reviewers,

To all of the men and women who are responsible for this action coming into effect, and being implemented, I say Thank You!!

This new labeling requirement is indeed a very good idea, and I strongly support this motion. I will be looking forward to implementing this into filters on my children's e-mail, as well as my own. I can only see good things coming from this. I myself have about 5 e-mail addresses, between work, home, family at large, ex-Army comrade sites, etc. and JUST THE PORN takes me about 15 min. a day to sort through. I can't see any hitch to helping keep out the junk, not from this idea, anyway. Good work, and again, thanks.

Breathing easier,

Michael Townzen
