Re: Business Opportunity Rule, R511993

Dear Sir or Madam:

I am writing this letter because I am concerned about the proposed Business Rule R511993.

I understand that part of the FTC's responsibilities is to protect the public from "unfair and deceptive acts or practices." If you want to protect the public, go after franchise and mlm business above \$1000 for start up costs. They are the ones who lose the most in these cases. Sunrider isn't worth monitoring.

I have been and independent Sunrider distributor for 19 years. I make a little money every month. I love the foods and eat them regularly. I use them as my core nutrition.

Thank you for your kind attention.

God Bless,
