To Whom It May Concern:

I believe that the Business Opportunity Rule R511993, if enacted, could have a **negative impact on the freedom** of marketing to networks, as well as all direct selling businesses. Therefore, I am requesting that you not pass or enact this rule, as it violates our freedoms as American citizens.

Let's focus on free enterprise and not squashing the little man.

Thank you,

  
Dr. Laura Thompson
