

Federal Trade Commission
Washington, DC

Dear Sir or Madam,

We are writing concerning the proposed Bus. Opportunity Rule R511993. In its current form some of the provisions will affect our ability to sell Mannatech products.

We are a couple, ages 68 + 65, who have been self-employed, operating a small retail business for 30 years, and are planning to retire from it in the near future. In 2006 we have enrolled in a direct selling opportunity with Mannatech, Inc., not only to supplement our social security benefits (our only retirement income) but also to help people who have health issues (as we have been helped) by sharing the gift of glyconutrient discovery.

Direct selling has been around a long time and is an ever-growing part of the American economy. We ask you to consider the consequences of these proposed rules on people like us and ask that you reconsider your decisions very carefully before moving forward with this.

Thank you for your time and considerations of this matter.

Sincerely
