Subject: Proposed Business Opportunity Rule

522418-70661

I am writing to you to voice my opinion on this ridiculous new proposed rule "Business Opportunity Rule - CFR Citation: 16 CFR Part 437. This rule will totally cripple home based businesses all over the country. I work from home so I can be here everyday when my kids get home from school. I thank God everyday for Freeliflife and Himalayan Goji juice. I am helping more people than I could in ANY profession I can think of and I'm earning more money by staying at home and marketing Freeliflife's incredible 'life changing' products than I could at any full time JOB. DO NOT ALLOW THIS PROPOSED RULE TO GO INTO EFFECT. It will kill small home businesses everywhere. Everyone talks about the deteriorating 'family unit' and how parents need to be home more for their kids and yet the main vehicle that allows people to work from their homes so they CAN be around for their kids, is being attacked. SUPPORT FAMILIES BY NOT ALLOWING THIS RULE TO GO INTO EFFECT! My kids will thank you :) In addition to that if you don't require these proposed requirements of other retailers, the it would be discrimination to require it of retailing home businesses. How well do you think stores would do if their customers had to wait 7 days before they could purchase anything that they picked out from the store??? It's absolutely insane. Thanks for listening.
