I hope you realize there is a legitimate fight for benefits at this local Refinery. A grievance has been filed about whether the Collective Bargaining Agreement Includes Work Force Stabilization. I assure you this grievance is valid, based in fact and very important. The company has the chance to do the right thing for its Work Force. Many grievance's are solved before they ever make it to Arbitration. The right thing is to solve this issue. It is not fair for employees to be disenfranchised from there benefits. It would be the wrong thing to do, to proceed with the sale of this refinery without addressing this very important issue. People work there whole lives to receive there Pensions. The very benefit that was wrote in to protect there retirement is at stake. You cannot proceed with this sale in an honorable way if you don't make stipulations to solve this important issue. I urge you to proceed in a way that allows peoples pension benefits to be protected.
