**Subject:** Sale of Woods Cross assets

I would like of comment on the sale of the Woods Cross refinery in Woods Cross, Utah.

I think the sale approval should be held up until all the employees here are treated fairly in regards to the Work Force Stabilization package that is offered in our YES benefif plan.

We were told the we are not eligible for that plan because we belong to a union (simply stated).

I, and every one I work with, think it is grossly unfair to exclude part of the work force that has made them(Phillips) millions of dollars every year. This is a multi-billion dollar company that acts like a mom and pop outfit that has to watch every penny. They think as long as they pay us paycheck , that is all they owe no more an no less.

It's as if they hated their employees and I do not know why. They say their employees are their most important asset but in reality they are less than truthful about that statement.

Thanks
