

To Whom It May Concern:

I am pleased that I have the option to buy my contact lens where I choose. This saves me quite a bit of money, which I use toward my college tuition.

I have never had a problem with obtaining a prescription from my eye doctor. I have compared prices at the doctor's office with those from contact lens suppliers. These companies, the contact lens suppliers, offer consistently lower prices.

I want to be able to continue to choose where I buy my contact lens. I want the FTC to continue to support laws that allow me to do this.

Thank you,

Crystal Crenshaw-Wiggins
