

It has come to my attention that congress is considering changing the law requiring eye doctors to give their contact lens patients a copy of their contact lens prescriptions.

Please protect the patient's right to get a copy of my prescription as well as their right to get their eye glasses prescription. It has helped me and many consumers like me obtain lenses at fair prices, and at times get replacement lenses quickly when lenses are lost while out of town.

The patients pay for the examination, either directly or through their insurance premiums. Please continue to allow them access to the results of these examinations. Do not allow eye doctor's the opportunity to gouge their patients.

Sincerely,

Bradley S Moore
