To whom it may concern:

I am writing hoping this email will make small difference. I am a contact lens wearer and so is my husband. We cannot afford contact lenses from the eye doctor so we buy them online where it is less expensive . We don't even have insurance so just the visit is very costly. Having the right to get my contact lens prescription is only fair. One eye doctor I had charged entirely too much. Not long after I bought a pair from him did I find out that I was able to get 2 pairs on the internet for almost the same price. I would greatly appreciate it if you could continue the requirement to have the doctors give us our contact lens prescription. Thank you in advance for your cooperation.
