Subject: Protect Your Rights as a Contact Lens Wearer

Hello,

Since I know the government screws up most things it gets hands on, please do not mess this up. I deserve to be able to do what I want with my own person, and unfortunately I have to rely on the federal government to protect that in the face of lobbyists with a lot of money. I applaud your efforts to pass this bill and look forward to you upholding it for the better of the citizens of this great country.

Thank You,
Jeffrey Forgue
