Subject: Availability of Contact Lens Prescriptions

I am quite unhappy to hear that consideration is being given to removing my right to have a copy of my contact lens prescription. I should have the right to purchase my lenses from any provider I choose to ensure that competitive prices are preserved. I have seen the effect that competition has had on my contact prices, reducing my expenses by over 50% when I was able to purchase from a provider other than my ophthalmologist. I have experienced no reduction in quality, nor have I experienced any adverse health risks. I strongly believe that I have the right to my contact lens prescription.
