Subject: CONTACT LENS LAW

Please keep the law in tact as it is now. I should be able to buy my contacts from whomever I want to, i.e. whoever has the best price. If eye doctors charged a reasonable price for contacts I would be happy to buy them from the doctor I see. Unfortunately eye doctors want to put a huge mark-up on glasses and contacts therefore they lose the business, shame on them for wanting to be so greedy, they don't deserve the business!!!
