Subject: Contact Lens Rights

I want to let you know of the importance to myself (and anyone who wears contact lenses) of being able to purchase contact lenses whenever and from whomever I wish. I am glad the Fairness to Contact Lens Consumers Act of 2003 was made law. This keeps eye doctors from trying to force me to buy my lenses from someone they choose instead of someone I choose. Please do not let special interest lobbying groups (funded by eye doctors) limit my rights by changing this law. Keep this law as it is. Thank you for your time and attention to this issue.
