Subject: contact lenses

As a contact lens wearer , a concerned consumer and as a Registered Nurse I wholeheartedly endorse the Contact Lens Act. I have had to change doctors when they informed me, after the exam, that they did not give out contact prescriptions. They can pontificate all they want but the bottom line is that they rake you with their prices and do not want to see you get the best deal possible for the exact same lenses. Please keep this act alive.

Thank you for your effort
