Subject: contacts

Good evening,

My name is Beth Holderbaum and I wear contacts. I am emailing you to let you know that I am in favor on the contact lens law currently in place. I am pleased that I have the ability to order my contact through the mail and am free to get my lens prescription filled where I choose. My physician examined my eyes and then handed me my prescription to get the lenses where I choose. It is much more convenient to send for them through the mail than the run to his office everytime I need them refilled.

Sincerely,
Beth Holderbaum
