**Subject:** Fairness to Contact Lens Consumers Act of 2003

Sir/Madam:

I support this new law that was passed in 2003 called the Fairness to Contact Lens Consumers Act of 2003. It is the governments' responsibility to protect the rights of the individual by allowing the individual to have at his/her request a copy of their prescription (RX) just like it is the patients rights to all information in their medical records. I DEMAND THAT YOU RESPECT THIS NEW LAW and reject any lobby to appeal this law that benefits the American public.

Paul De Graaff
