**Subject:** lobbyist action

To Whom It May Concern:

I fully support the Fairness to Contact Lens Consumers Act of 2003. I understand though that eye doctors are lobbying The Federal Trade Commission to try to limit contact lens wearers rights. I am very unhappy with this action. I have been a contact lens wearer for 30 years and as of last year no longer have a hassle when trying to get my prescription from my eye doctor so that I can save money on my lenses. My husband's insurance coverage has been changed so that I have to pay more for eyeglasses so it is very important to me to be able to save money on my contacts as well as my sons. Eye doctors make enough money off of the service they provide...eye examinations. They should not be able to monopolize your ability to save money by taking away your democratic choice to shop and compare prices. We aren't forced to buy prescription drugs from doctors so why should we be forced to buy contacts from eye doctors? Please don't allow the lobbyists to change this law in any fashion!
