**Subject:** Fairness to Contact Lens Consumers Act of 2003

I support the new Contact Lens Law of 2003 and am not happy to hear about eye doctors who are trying to limit my rights.

It's important that it be as easy and convenient for consumers to purchase lenses from whomever they choose. So please, keep the Consumers Act in tact and not be swayed by doctors who just want to make more money off the working class. We have rights as well.

Sincerely,  
Maria Kaanapu
