Subject: in support of new law

I think it is very important to be able to get my contact lens prescription from my eye doctor - free of charge, free of hassle, and without having to order contacts from him. I have worn contact from years and always order from 1-800-CONTACTS and the former LENS EXPRESS. If I have to go through my doctor, it often takes two weeks, costs more, and even costs extra for a "fitting" appointment, even though I've worn the same lenses for years!
LOVE THE NEW LAW!
