Subject: Please let me get my contacts where I want to get them

To whom it concerns,

I would prefer not being forced to buy my contacts from my doctor or his associates. I have done so in the past and pay so much more than I do for the same contacts at another business.

I feel that this is a limitation on my rights to pick and choose vendors and feel it must be some sort of scam on health care. I already have to pay exhorberent prices for healthcare please don't push my eye doctor or eye vendor to have to do the same thing.

Alicia K Garner
Contact wearer

PS I will go back to glasses if I get pushed into a corner - I can get them most anywhere.
