Subject: Re: Contact Lens Law

To whom it may concern:

I have been a contact lens wearer for years. I am sending this letter to support the Contact Lens Law. I believe that I have the right to obtain my prescription from my eye doctor and be able to purchase contacts wherever I like with that prescription. It gives me more flexibility in purchasing my contacts from whomever I choose. Just like any other purchase, I will be able to shop around and have that right as a consumer to buy from whomever I want. I support this Contact Lens Law and believe it is my right as a U.S. citizen to have that option.

Thank You,
Jerry Binder
