Subject: Fairness to Contact Lens Consumers Act of 2003

Please do not change the current law that gives me the right to a free prescription for contact lens after an eye exam. This law makes it possible for me to purchase my contact lenses from the least expensive and most convenient supplier.

My physician reluctantly gives me a prescription for my contact lens, but she implies that she would be happier if I purchased the contacts at the vision center associated with her office, which would cost 10% to 20% more for the same brand, same prescription. I also would have to pick up the lenses instead of having them mailed directly to my home.

I do not want to sign a waiver or buy lenses as a condition of receiving my prescription from my doctor.

Thank you, Nancy Mattis
