Subject: I love the convenience of buying my lenses from the dispenser of my choice

I love the convenience of buying my lenses from the vendor of my choice. I buy from 1-800-contacts online and they arrive quickly. My daughter gets her lenses delivered by 1-800-contacts as well.

Usually I buy my first set from the eye Dr. I see in the mall since the lenses and fitting prices are structured so that it makes more sense to use them as I would end up paying more by buying elsewhere.

After that, it is so convenient to use 1-800-contacts that I want to keep the right to buy from my choice of vendor.

Thank you,
