As a life-long contact lenses wearer, please note that I support the new Contact Lens Law.

It is important that it be as easy and convenient as possible to purchase lenses from whomever I choose. My eye doctor is neither easily available or accommodating when it comes to helping me get the lenses I need. He constantly wants me to come back, make yet another appointment, etc etc and it VERY hard to get the written prescription from him for either the eyeglasses or the contacts.

Please do not abide by the dollars-based doctors wishes. It's the consumers that you need to protect and honor, not them.
