**Subject:** Fairness to contact lens wearer's Act

To whom it may concern:

I oppose the part of the Fairness to Contact Lens Wearer Act that could make us wait days for our lenses. It is important to me that I am able to order my lens and receive them as soon as possible. Sometimes my lenses wear longer or for some reason do not wear as long as at other times. It depends on if I am outside a lot or if I am exposed to dust or pollen that causes my eyes to build up more protein on my lenses, so I need to be able to get them whenever I need them.

I always purchase my contacts by e-mail and they send them the same day. Which is very convenient and affordable.

Thank you,  
Pam Tomlinson
