Subject: contact waiting period

Dear legislators:

I have always felt that there must be some incredible agreements between optometrists and who knows who else that make it so difficult to get contacts at a discount.

Now I hear there is a proposed rule that people will have to wait days after fittings or ordering to get their lenses.

Like many people, I don't have a lot of money and can't order my lenses far ahead. Also I am currently working abroad the the shipping takes extra time.

I resent this interference with my need to get the lenses required for my vision correction.
