Subject: Waiting period to order contact lens online

This service is dependable the right thing to do for consumers. There are many safe guards to protect the consumer against incorrect diagnosis or improper fit. Please do not limit online companies from filling contact lens orders expeditiously. Please don't let the consumer get caught in the middle (again) between the doctor's lobbyists and the business offering these services.

Thank you,

Satisfied online ordering contact wearer!

Sean M. Colfer
