**Subject:** I (don't) want my mommy!

Do you people in the government think you are my Mommy? My Daddy? What is it about me that makes you think I need YOUR protection.

Actually, now that I mention it, I DO need your protection; so couldn't you spend a little more time and money beefing up the military to fight terrorists, and a lot less time and money worrying about my eyesight? Believe me, there is no one on this Earth who will be more careful about my eyesight, than ME.

Please, let 1-800-CONTACTS ship me any contacts I want, at any time, at any price the two of us agree is fair.

Stay OUT of my business (and theirs).

Call me if you would like to discuss this further.
