**Subject:** alternative sources for buying contact lens

Thank you for changing the law so that it is easier and more consumer friendly to have my eyes checked and walk away with a prescription. I rely on contacts for my vision and appreciate being able to buy them at a competitive rate. I often need them quickly and every day counts in the process. I would like to be able to order them and have them shipped ASAP. *Why wait?*

thanks for all you do to make this process work.
