**Subject:** Contact Lens Rule

Leo .gif (3 KB)

I am writing you in hopes you will not propose or enforce the new rule where a consumer must wait days before our lenses must be shipped after having our eyes tested for contact lens. It would be very inconvenient for me as I travel extensively. Now, I can get my eyes tested and have my contacts shipped to my next destination, if necessary, very quickly. I appreciate the fact that I can purchase my contacts from alternative sources in a very timely manner.

Thank you,  
Patsy Gresham
