Subject: Contact Lens Rule, Project No. 411002

Hello, I oppose the part of the proposed rule which could make you wait days for your lenses. Getting my contacts quickly is very important to me. Especially since I do not wear glasses, b/c they are uncomfortable and for various viewing reasons. There are times when I loose my contacts and I need a new pair right away. What would happen if this was the case, and I had to wait days to get a new pair? Not see obviously! I can go on and on, on why getting my contacts ASAP is necessary.
