Dear Sir or Madam:

Please do not implement the currently proposed "Contact Lens Rule" that would require that I wait days rather than hours for shipment of my contact lenses. This would present an inconvenience to me in acquiring my lenses. With a busy lifestyle and having needed and enjoyed the convenience of quick shipment in the past, the decision to change this would not be well-received and, in my opinion, reflect negatively on the president in an election year.

The information I received about implementing this rule did not provide a reason for it. While I cannot imagine what that reason is, I am open to legitimate justification for the inconvenience it would cause (ie: homeland security would be understandable, but for contact lenses?).

Thank you for your consideration of my input on this matter.

Sincerely,  
Jay Rasmussen
