**Subject:** contact lense legislation

Dear Madam or Sir,

I am writing to express my concern about the possible change in rules for ordering contacts that may increase the time it takes for contacts to be shipped to me from hours to days. I have worn contacts for almost 15 years, and I have found them to be one of the most important parts of my life. I can see much better with them than I can with glasses, and I can do a whole range of activities much more easily. I always broke my glasses constantly and found them uncomfortable, and I dread the times when I have to wear glasses instead. When I have a torn or worn-out contact, and I need a new one, I need it immediately. A wait of some days would be a great inconvenience to me, and I see no reason what legislation should be passed that does this to me while giving me no discernible benefit.

Thank you for your attention,  
Eric Bone
