Subject: contact lenses

please do not let the proposed rule about waiting for contact lenses to be shipped go through!

there have been plenty of times that i have ordered my lenses at the last minute. if i had to wait several days for them to arrive then i wouldn't be able to see!

i only wear lenses. i do not even have glasses. i believe it is my right to order and receive contact lenses as quickly as i need them. I have a prescription and they are available. how can anyone possibly benefit by having a delay in service?

thank you for your consideration in this matter.
