I oppose the rule that must make you wait days to receive my contact lenses. I have been ordering my lenses on-line for about 5 years, and love the convenience of doing so. Because I am on a limited budget, I wait as long as I can to order, and if I need to pay for something days in advance of receiving, I would find it a terrible hardship. I do not like that you are doing this and I hope that it will not prevail.
